

# God cancels winter

By Daniel Savickas

In a press release sent down from the pearly gates, God has announced his plan to cancel winter.

In the press release God stated a number of reasons for his plans to cancel winter, but in the end it came down to his support for the President of the United States. As stated in a recent LowDown article, the Son of God, Jesus, made it clear that God backs the war on terrorism; which is now known as the global struggle against extremism. In God's eyes, apparently there is nothing more extreme than the X Games.

"The X Games are the definition of extreme," God stated in the press release. "If I cancel winter, there will be no X Games, thus helping fight the global struggle against extremism."

In addition to canceling winter and the X Games, God has also announced his plans to ban the sale of Mountain Dew, Right Guard Xtreme Sports Stick, and the director's edition of Extreme Ops for their role in extremism. The television show Extreme Makeover and the Extreme Sports Channel will also be taken off of the air.

"I would agree to letting winter continue if we got rid of snowboards, skis, and snowmobiles," God continued in his press release. "I'd let you keep snowblades, even I know those things are stupid and completely un-extreme. I'd let you keep sleds too, no wait, sleds can be pretty extreme, scratch that last part."

With the cancellation of winter, many people in the Tahoe area

have been left to search for the meaning of life.

"If I can't snowboard, what am I supposed to do?" asked one local.

Many are concerned that if God cancelled winter, that summer must be next on his list of things to scratch. The end of summer would

mean no kayaking, mt. biking, surfing, or wakeboarding. If God's negotiations for winter are to leave us with any clue, one must believe the cancellation of summer would leave us with nothing more than rollerblading.
