

# Horrorscopes

With Mista Cleo

## Capricorn

(Dec. 22- Jan. 19)

Happy New Year! What does this New Year mean for you? Three hundred and sixty five days of going back on your New Year's Resolution. Save yourself some trouble and make your New Year's Resolution a promise to yourself that you're not going to make any resolutions.

## Aquarius

(Jan. 20- Feb. 19)

This month that special someone you've been noticing from a far will still not know you exist. Bridge the gap, I know I've said it before, but it never hurts to introduce yourself to someone and say something special like, "Hi, my name is (insert your name here) and I was just wondering if you'd like to make out?"

## Pisces

(Feb. 20- March 20)

Keep forgetting those important dates but you can't afford a fancy Palm Pilot to log your day-to-day schedule? Buy some permanent

markers and write everything you need to do on your hands. I call it a Ghetto Palm Pilot, and the great thing about it is you can never forget it at home.

## Aries

(March 21- April 19)

This month it's not so much the planets that are aligning to predict your future. It's more like the bill collectors.

Looks like your ass needs to get a second or third job. If you're ever really hard up for cash you just call Mista Cleo and he'll direct you to the want ads.

## Taurus

(April 20- May 20)

You could quite possibly be the sexiest of all the signs. What does that mean for you? Well, if you are a female- you'll have more guys to choose from than you'll know what to do with. If you're a male- good luck, but the odds are not in favor of you finding that special someone in Tahoe.

## Gemini

(May 21- June 20)

Change your favorite color from blue to a nice shade of teal this month and great things will be

in store for you.

## Cancer

(June 21- July 22)

If money grew on trees I'd tell you to plant a forest- but it doesn't. I'd tell you how to get easy money but the truth is I don't have a clue how to do that. If I did do know how to do that do you really think I'd waste my psychic powers writing the horrorscopes for this trashy magazine?

## Leo

(July 23- Aug. 22)

Hey, this month... Go on and dust your shoulders off.

## Virgo

(Aug. 23- Sept. 22)

You are my sunshine, my only sunshine. Hey, what can I say; you make me happy when skies are grey.

## Libra

(Sept. 23- Oct. 23)

Feelin' like your gear is outdated and or not fashionable. Go ahead and rock a turtleneck this month, trust me. Turtlenecks are going to be mad hot in about six to seven months, you'll be ages ahead of the giz-ame.

## Scorpio

(Oct. 24- Nov. 22)

This month you'll be faced with a number of obstacles and or opponents so you best bring A game. You bring anything but your A game and you'll be riding the proverbial pine and your ass will have gotten served.

## Sagittarius

(Nov. 23- Dec. 21)

I like your shoes, are those new? Did you loose some weight? See how good those questions made you feel, pass em' on yo.
