

# Horrorscopes

With Mista Cleo

Hmmm... Give me a minute. I thought The LowDown was over so I was preparing for some serious vacation time. Ok, right now, you are where you are reading this- existing.

## Gemini

(May 21- June 20)

Shot in the heart, and you're to blame. What can I say? You gave love a bad name.

## Cancer

(June 21- July 22)

Your lack of faith is harshing my mellow- please stop it.

## Leo

(July 23- Aug. 22)

Try something new this month, it doesn't have to be as drastic as cross dressing or getting plastic surgery- but you don't really need to rule those options out.

## Capricorn

(Dec. 22- Jan. 19)

Sex is good for the soul and it's a great cardiovascular workout. But be aware that there are consequences in life. Always practice safe sex and know that if you're Catholic and you're not married, premarital sex could assure you'll end up in hell.

## Aquarius

(Jan. 20- Feb. 19)

If humans were household appliances, you'd be a vacuum. In short, you suck. Just kidding, but not really.

## Pisces

(Feb. 20- March 20)

Love is like a lollipop, sure it's sweet; but it's for suckers.

## Aries

(March 21- April 19)

Feeling a little empty? You know a good micro brew has enough calories to fill you up for awhile. If you're under 21 you'll just have to deal with that hollow feeling.

## Taurus

(April 20- May 20)

## Virgo

(Aug. 23- Sept. 22)

Be a hippie this month: eat granola, hug a tree, center your shackras, be right on; then take a shower, get a corporate job, and drive around in your beamer while blasting Wide-spread Panic you sell out!

## Libra

(Sept. 23- Oct. 23)

Hey, The LowDown called; it said to get a life.

## Scorpio

(Oct. 24- Nov. 22)

Call an old friend really, really late in the night/early in the morning. Trust me, it will be an entertaining phone call. If you don't have someone to call, try J-Woo; his number is on the front cover (tell him Dan says hello).

## Sagittarius

(Nov. 23- Dec. 21)

Life is what you make of it. Personally I like to make nachos. I pile on as much shit as I can and then I eat until I feel like I'm going to explode.
