

HORRORSCOPES

With Mista Cleo

Capricorn

(Dec. 22- Jan. 19)

I know I always bitch about this job, but I'm really going to miss it. Next month when you're really missing me and my advice, just go and dig through an old issue and read your horoscope. Most likely it won't accurate and it won't have anything to do with your life, but what's new. You don't read my advice because its good, you read it because Mista Cleo is mad funny.

But, just because I love you so much, here's a horoscope for January: Life is like your mom, at times it's annoying and it makes you crazy, but you love it.

Aquarius

(Jan. 20- Feb. 19)

Life is filled with tough decisions, but here is one you'll never have to worry about. When there's a party that only the "cool people" are invited to, you're not supposed to attend.

Pisces

(Feb. 20- March 20)

You and me have been through a lot together. Oh wait; its you

and I have been through a lot together. See, you've taught me so much and that's why Mista Cleo loves you.

Aries

(March 21- April 19)

You're going to end up with the girl or guy of your dreams. In a few days you'll be offered the job you've always wanted. You'll be a salary employee with benefits and you'll make enough to not only buy a house, but you'll also be able pay all of your bills on time. Your life is going to perfect in every way, just make sure you look both ways before crossing the street; it would suck to get hit by a car and die when you've got all of that going for you.

Taurus

(April 20- May 20)

Lately I've been hearing that people think Mista Cleo is a fraud. It is not true; Mista Cleo is the real deal. Here, I'll prove it. Later on today you'll think about something completely random and it will make you think of

Mista Cleo. See, I told you Mista Cleo has fo real psychic abilities.

Gemini

(May 21- June 20)

Did you know that Mista Cleo is a genius? No really I tested off the charts on my IQ test, but it doesn't take a genius to tell you that you're a moron. That's all right though, intelligence will only take you so far in this world, fashion, and looks are what really matter. Lucky for you you've got all of the top brand names in your closet. You're going places and you good doin' it.

Cancer

(June 21- July 22)

I once was lost then I was found; now I'm lost again. What does that mean for you? Nothing, can't it be about Mista Cleo just this once. Damn, you're so inconsiderate.

Leo

(July 23- Aug. 22)

Have you been missing out on some hot and heavy make-out action lately? Yeah, I can tell. Here's what you do, the next time you're talking to a fly member of the opposite

sex tell them you're related to Mista Cleo. Being related to me is like Spanish Fly; they won't be able to take their lips off of you.

Virgo

(Aug. 23- Sept. 22)

I've never really liked you that much, but I'll leave you with this advice. Your life could always suck much worse that it does right now.

Libra

(Sept. 23- Oct. 23)

Like water is to a meadow, or wood is to a forest, you are to the universe. Ha, I said wood.

Scorpio

(Oct. 24- Nov. 22)

Do you ever get that not so fresh feeling? Take a shower you douche bag.

Sagittarius

(Nov. 23- Dec. 21)

Roses are red, violets are blue, Mista Cleo's outtie 5,000, so now all of your decisions are up to you-man, you're screwed.
