

Horrorscopes

By Mist Cleo

around, all of your friends and loved ones should be rollin' in loot. So don't waste any time, get going on a list of expensive things you don't need and would never buy for yourself. Photocopy the list, give it to everyone you know, and remind them how good it feels to give.

Taurus

(April 20- May 20)

Your future will depend on one very important decision this month. But if you don't decide, your future won't be affected. So don't decide to do anything

this month, the choice you make could be the wrong one.

Gemini

(May 21- June 20)

Someone will buy a drink this month, but don't drink it. They could have SARS, Mad Cow or Foot and Mouth disease. By touching the glass they touched to your lips, you could get any one of those ailments. Start carrying an umbrella and wearing a mask and gloves to the bar. It worked for Michael Jackson; he doesn't have SARS or Mad Cow and see how happy it has made him (just stay away from small children).

Cancer

(June 21- July 22)

If you listened to Mista Cleo last month, you should be livin' large after winning millions in the lotto. Just relax and enjoy your new lakefront home and Subaru WRX. The rest of your life should be cake. Now that I mention it, how about a kick down for Mista Cleo? If you didn't win, you're

a sucker for not listening to Mista Cleo.

Leo

(July 23- Aug. 22)

You're feeling older and not so hip. Start smoking cigarettes to get that, I'm really cool look back into your life. I know what the Surgeon General says it's bad for your health, but come on, the cigarette companies swear smoking isn't bad for you or addictive; and they do make them, so I think they'd know. Why would they lie? Enjoy flavor country.

Virgo

(Aug. 23- Sept. 22)

Let's face it, you're clueless this month. You'd have a better chance reading everyone else's horrorscope and finding a happy medium. I have no advice for you, because any advice I'd give you would still leave you absolutely clueless.

Libra

(Sept. 23- Oct. 23)

Don't worry about doing anything this month. After all, thinking about doing it is far more fulfilling than actually doing it.

Scorpio

(Oct. 24- Nov. 22)

Wake up, drink coffee, go ridding, go home and watch a movie, drink a beer, eat dinner, work if you have to, go to sleep, repeat.

Sagittarius

(Nov. 23- Dec. 21)

Get use to being one step behind. Let's face it, we all can't be movie stars. Well, except for everybody but you, but who's counting. It's good to ground yourself every now and then, which is exactly what this horrorscope is doing. You see, Mista Cleo is just that good,

Capricorn

(Dec. 22- Jan. 19)

Someone will stand too close to you this month. Tell them to get in where they fit in, and Mista Cleo says it ain't here. If they continue creepin' while you're sleepin', tell them to bounce or be bounced or you'll call your mom.

Aquarius

(Jan. 20- Feb. 19)

You're poor, quit wasting your time waiting for Mista Cleo to solve all of your problems. Get up and go get yourself a J-O-B punk.

Pisces

(Feb. 20- March 20)

Happy Birthday to you, Happy Birthday to you, Happy Birthday from Mista Cleo, Happy Birthday to you. Now lets get real, all of your friends and loved ones are broke, so don't expect much in the way of gifts. Just be happy they remembered, recognize.

Aries

(March 21- April 19)

By the time your birthday comes
