

# HORRORSCOPES

With Mista Cleo

## Capricorn

(Dec. 22- Jan. 19)

This month you'll get knocked down, they you'll get up again. Nothing is ever going to keep you down. This month you'll get knocked down, they you'll get up again. Nothing is ever going to keep you down. If something should ever try to keep you down you should drink a vodka drink, you should drink a whiskey drink, you should drink a cider drink, or you should drink a lager drink. That is unless you're under 21, then you should drink a Snapple, a Red Bull, or a glass of water.

## Aquarius

(Jan. 20- Feb. 19)

This month if you have friends in low places where the whiskey drowns and beer chases your blues away, it will be okay.

## Pisces

(Feb. 20- March 20)

Drinking is for squares. What does that mean for you? Well this

month you shall be known as a object containing four ninety degree angles.

## Aries

(March 21- April 19)

Sometimes it's more important to stay in bed all day and rethink the previous night than it is to get up and start your day. Remember; those who do not learn from their past are doomed to repeat it.

## Taurus

(April 20- May 20)

Don't over shot your goals... 40 ounces to freedom is such a long way to go, start out with 12, that will get you started for sure.

## Gemini

(May 21- June 20)

Sometimes do you feel like you've got to run away, get away from the pain that someone drives into the your heart? Does the love you share seem to go nowhere and you've lost the light and now you toss and turn

at night? Did you once run to them? Now do you run from them? This is tainted love you've been given. You need to give that shit back.

## Cancer

(June 21- July 22)

The opposite sex is like alcohol... They're always a lot of fun until the next day, then it's more or a headache than anything else.

## Leo

(July 23- Aug. 22)

Time flies when you're having fun... But don't have too much fun, before you'll know you'll wake up and you'll be 25. If you're over 25 and you've been having too much fun to realize it; you should immediately jump on the wagon, finely tune your resume, and get a purpose in life. If you have a purpose in life, just be sure to have a fantastic month.

## Virgo

(Aug. 23- Sept. 22)

This month for every two people that walk into a bar, a third person

will duck. Be smart enough to be that third person. **Libra**

## Libra

(Sept. 23- Oct. 23)

Cheap beer is just like expensive beer. If you drink too much you're going to be hung over in the morning. Stay home and read a book instead of drinking too much. The knowledge, unlike your dinner will still be with you in the morning (by the way, the new Harry Potter is off the hezzy).

## Scorpio

(Oct. 24- Nov. 22)

With how hot the weather has been over the past few months, make sure you stay hydrated. The definition of whiskey is the water of life, but if you ask me I'd rather die of dehydration than drink that shit.

## Sagittarius

(Nov. 23- Dec. 21)

Roses are red, violets are blue, I could use a drink, I suggest you have two.
